We never choose to tell him anything good. Like what we're doing now. This is a missed opportunity.

What's your afternoon look like? Would like to catch up.

Critics of the EPA here at the statehouse (generally never in agreement with Ken Wards reporting) are pointing to this story today as evidence that the Agency is arrogant and unaccountable:

Hi group,

I am providing additional clarification on this morning's call's task regarding external affairs/PIO coordination. There are TWO separate issues that need coordination:

1. The response to letter from Sen. Rock and the ATSDR and EPA environmental Unit or regulatory work.
2. Toxicological message/summary coordination between ATSDR/EPA—Bill Arguto is our regional contact for water protection, Fran Burns and Jack Kelly (environmental unit coordinator) for Emergency Response aspects, and ATSDR's Lora Werner/Karl Markiewicz, and should be aware of what HQ external affairs is saying on this—since after they are the people who have an answer about what is happening at the ground level. FTI At the HQ level our HQ External Affairs office, is coordinating with Health and Human Services, EPA Office of Research and Development, the people in charge of IRIS. Essentially we need you guys to make sure their information is accurate and tied in with the groundwork.

Thanks!
